

ALBERTO CASADO TORRES

Senior Software Engineer · Technical Lead

Product Engineering · Architecture · Frontend · Backend · AI

Valencia, Spain · Remote

(+34) 717713927 · acasadotorres@gmail.com

PROFESSIONAL SUMMARY

Senior Software Engineer and Technical Lead with 15+ years of experience building production web applications and 10+ years leading engineering work on Uwazi, a platform used by 100+ organizations worldwide. Experienced in taking complex products from architecture and implementation through testing, performance optimization and production delivery, across frontend and backend systems.

Hands-on experience with React, TypeScript, Node.js, backend architecture, data migration systems, AI integrations and automated testing. Proven track record leading large technical initiatives, including a complete frontend rewrite, reducing average frontend load by 65%, introducing comprehensive unit, component and end-to-end testing, and delivering AI-powered product features.

PROFESSIONAL EXPERIENCE

HURIDOCS — Remote

Senior Software Developer / Technical Lead

Apr 2016 – Present

- Built and evolved **Uwazi from the ground up**, a production platform used by **100+ organizations worldwide**, taking ownership across frontend engineering, backend architecture and technical delivery.
- Led the **complete rewrite of the frontend**, evolving its architecture across multiple generations of the technology stack while coordinating the technical work, team execution and release timeline.
- Designed and implemented **backend architecture and data migration systems** supporting major platform evolution and large-scale changes to the underlying data model.
- Reduced **average frontend load by 65%** through architectural and performance improvements.
- Established a comprehensive automated testing strategy covering **unit, component and end-to-end testing**, using Jest, React Testing Library and Playwright.

- Integrated **AI services for data extraction** and built an **AI assistant integrated with the Uwazi API**, implementing both the frontend and backend integration with the agent service.
- Introduced **feature flags and soft-launch practices** for controlled rollout of major features and safer production releases.
- Led and mentored developers and coordinated **large technical projects, delivery milestones and cross-functional collaboration** with Product, Design and Backend teams.
- Designed and implemented a **data visualization feature** for exploring and presenting complex datasets.

FUNDING CIRCLE — UK

Front End Engineer

Jan 2015 – Apr 2016

- Built customer-facing features for a large-scale financial web application used by small businesses, working closely with Product and Engineering teams.
- Focused on frontend architecture, performance, usability and engineering quality in a high-performance Agile environment.
- Contributed to testing, code review and collaborative engineering practices.

THOUGHTWORKS — Ecuador

Consultant Developer

Feb 2014 – Oct 2014

- Worked as a consultant developer for a New York-based client, providing technical guidance and hands-on development using JavaScript and AngularJS.
- Contributed to Agile engineering practices, technical knowledge sharing, talks and development workshops.

LEVELAP — Ecuador

Software Developer / Agile Consultant / Team Leader

Sep 2012 – Jan 2014

- Developed an ERP platform for the Ecuadorian market while combining hands-on development with team leadership and Agile consulting.
- Helped establish engineering practices focused on technical excellence, continuous improvement, emergent design, pair programming and Test-Driven Development.

CODEBOX — Spain

Software Developer

Nov 2009 – Sep 2012

- Developed web applications across multiple projects and technology stacks, including a medical clinic management platform using CodeIgniter and Backbone.js.
- Gained broad experience in web application development, software design and engineering practices.

TECHNICAL SKILLS

Languages & Frameworks

TypeScript · JavaScript · React · Next.js · Node.js · Express · AngularJS · Backbone.js

Architecture & Backend

Frontend Architecture · Backend Architecture · REST APIs · WebSockets · Data Migration Systems · MongoDB · SQL

Testing & Quality

Playwright · Jest · React Testing Library · Unit Testing · Component Testing · End-to-End Testing · TDD · Accessibility / WCAG · CI/CD · Code Reviews · SOLID

AI & Product Engineering

AI Integrations · AI-assisted Data Extraction · AI Agent Integrations · Feature Flags · Soft Launches · Data Visualization

Leadership

Technical Leadership · Team Leadership · Mentoring · Architecture · Technical Decision-Making · Agile / Scrum · Scrum Master · Stakeholder Collaboration

LANGUAGES

Spanish — Native

English — Fluent

EDUCATION

Centro de Evaluación Informática — Spain

Web Application Programming & Computer Programming
2005 – 2007

Escuelas San José — Spain

Medium Degree in Electronics / Electrical & Electronics Engineering
2002 – 2004
